PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience building responsive, performant web applications using React.js and modern JavaScript. Strong eye for UI/UX with a track record of translating designs into clean, accessible interfaces. Keen to contribute to teams building products users love.

EDUCATION

B.Tech – Computer Science & Engineering

Your College Name Here

2021 – 2025 · CGPA: 7.8 / 10

Higher Secondary (XII) – Science (PCM)

Your School Name Here

2019 – 2021 · 84.2%

TECHNICAL SKILLS

Languages: C++, Python, JavaScript (ES6+)

Frontend: React.js, HTML5, CSS3, Responsive Web Design

Backend & DB: Node.js, REST APIs, Data Modelling

UI/UX: Figma, Wireframing, Prototyping, User Journey Mapping, Visual Hierarchy

Tools: Git, GitHub, Version Control, Agile/Collaborative Development

CS Fundamentals: DSA, DBMS, OOP, Web Technologies

CORE COMPETENCIES

- Software component-based architecture, RESTful API design, clean code principles
- Problem Solving:** Analytical thinking, algorithmic reasoning, debugging, optimizing code flows
- Design Thinking:** User-centered design, rapid prototyping, iterative UX improvement
- Collaboration:** Cross-functional collaboration, Git workflows, documentation

ADDITIONAL INFORMATION

Languages: English (Professional), Hindi (Native)

Interests: Open-source contribution, scalable system design, HCI, emerging web technologies

Currently Pursuing: Advanced DSA & System Design for top-tier engineering roles

PROJECTS

Portfolio Website

↗ Live

Personal portfolio with responsive layout and smooth animations showcasing projects and skills.

96/100 Lighthouse score · 500+ unique visitors in first month

React Tailwind CSS Framers Motion Vercel

E-Commerce UI Platform

↗ GitHub

Shopping interface with product listings, cart management, search/filter, and user authentication.

40% faster load time via lazy loading & code splitting

React Redux Node.js MongoDB Firebase Auth

Real-Time Chat App

↗ GitHub

WebSocket-powered messaging with rooms, online presence indicators, and message history.

50+ concurrent users · <100ms message latency

React Socket.io Express MongoDB

EXPERIENCE

Frontend Developer Intern

Jun 2024 – Present

Freelance / Personal Projects

- Built and deployed 3 client websites using React & Tailwind, improving engagement by 35%
- Integrated REST APIs with proper error handling, loading states, and async data flows
- Collaborated with designers in Figma to deliver pixel-perfect, responsive UI components
- Reduced bundle size by 28% through tree-shaking and dynamic imports

CERTIFICATIONS

- Frontend Dev – Meta**
Coursera · 2024
- JS Algorithms & DS**
freeCodeCamp · 2023
- Responsive Web Design**
freeCodeCamp · 2023

ACHIEVEMENTS

- Top 10% on LeetCode**
200+ DSA problems solved across arrays, trees & DP
- Hackathon Finalist 2024**
Built real-time collaborative editor in 24 hrs
- Open Source Contributor**
3 accepted PRs on GitHub public repositories
